

**Michele Patrini** is a researcher at Don Gnocchi Foundation (Milan, Italy) who graduated as a medical doctor at Università degli Studi di Brescia (Brescia, Italy). Since December 2018 he has been part of Cochrane Rehabilitation Headquarters following several projects. As manager of the Review Working area, he cooperates with Prof. William Levack and Dr. Farooq Rathore running the “*Review Tagging*” process and as a member of the Communication Working Areas, under the lead of Prof. Francesca Gimigliano, he is the webmaster of the Cochrane Rehabilitation website. Among others, he is involved in the be4rehab WHO-Cochrane Rehabilitation joint project and The Randomized Controlled Trials Rehabilitation Checklist (RCTRACK project). His main interests are evidence quality assessment, methodology in rehabilitation research and web-based knowledge translation.
