

STEFANO GIUSEPPE LAZZARINI, PT

After graduating as Physiotherapist at the University of Brescia in November 2017, Stefano started working as researcher at the unit of Don Gnocchi Foundation of Rovato in January 2018 and, later that year, he joined the Cochrane Rehabilitation headquarters. As member of Cochrane Rehabilitation, Stefano is the Publication working area manager, cooperates with Prof. Gimigliano in the running of two special projects, the *Ebook project* and the *Prioritisation exercise*, in line with Cochrane Knowledge Translation strategy, and is involved in many other projects.

His areas of interest include the rehabilitation of musculoskeletal and neurological disorders, the production of systematic reviews and meta-analysis and the production of search strategies in the role of information specialist.
