## What

The Cochrane Rehabilitation 5th Anniversary is an online event focused on looking at what has been done and on collaborating to define the next five years of Cochrane Rehabilitation.

This special moment in Cochrane Rehabilitation life is intended to be a time for experts, professionals, and stakeholders who have worked or are working with Cochrane Rehabilitation to gather and meet together. We envisioned a day dedicated to reflecting on the past, present, and especially the future of our organization structured around highly relevant topics.

## Why

To celebrate its 5th anniversary, review its achievements and reflect on new goals and challenges, Cochrane Rehabilitation wants to organize a day to share knowledge, curiosity, and experiences to generate insights and suggestions to define the next 5 years of Cochrane Rehabilitation.

## When

it will take place on three days in December 2021:

13<sup>th</sup>, 17.00 – 19.00 CET

14<sup>th</sup>, 9.00 – 11.00 am CET

16<sup>th</sup>, 17.00 – 20.00 CET

## How

The days on the 13<sup>th</sup> and 14<sup>th</sup> each consist of a series of three small panel discussions, where experts and practitioners will be interviewed by familiar and young faces from Cochrane Rehabilitation.

After the talks there will be a Q&A time dedicated to questions for the speakers.

On December 16<sup>th</sup> there will be six concurrent sessions, with key facilitators moderating each topic, followed by a break moment where participants can decide to take a break or get involved with other participants. In the final a moment, a report from each of the six sessions will precede a plenary discussion and then there will be the final remarks and the closure.

The event will be recorded, so the full recording of the event will be available later. If you have any questions or communications for us regarding this, you can contact us at: [cochranerehab@dongnocchi.it](mailto:cochranerehab@dongnocchi.it)

**We would be delighted if you decide to attend the event and thus make your contribution to the future development of Cochrane Rehabilitation.**

**PROGRAMME – DECEMBER 13, 2021**  
5 years of Cochrane Rehabilitation activities

**13th December, 2021**  
**17.00 – 19.00 CET**

**17.00 – 17.15** Introductory remarks and Cochrane Rehabilitation overview
