

Prof. William Levack

Professor William Levack (PhD, MHealSc, BPhy) is Dean & Head of Campus for the University of Otago Wellington (UOW). He is also the Past President of the New Zealand Rehabilitation Association, and a New Zealand Registered Physiotherapist. William was a founder member of Cochrane Rehabilitation, and co-leads Cochrane Rehabilitation's Review Committee. He also contributes to the work of the Cochrane Rehabilitation Methodology Committee. William has published over 100 peer-reviewed publications on rehabilitation, plus an additional 9 book chapters. In 2015, he co-edited a textbook entitled: "Rehabilitation Goal Setting: Theory, Practice and Evidence". Professor Levack's research focuses on rehabilitation for people with neurological and chronic respiratory conditions as well as broader issues regarding interprofessional practice, person-centeredness and patient engagement in rehabilitation.
