

Brian Reichow, Ph.D., is Associate Director for Research and Evaluation at the University of Connecticut Center for Excellence in Developmental Disabilities, Education, Research, and Service and Associate Professor of Child and Family Studies in the Department of Public Health Sciences at UConn Health in Farmington Connecticut. Dr. Reichow's current research interests include the translation of research to practice, the use of systematic review methods and meta-analytic methods to identify evidence-based practices, and applied research involving young children with or at risk of developing disabilities and their families. He has been a technical advisor for the World Health Organization for over a decade, assisting with the development of practice guidelines and training materials to increase the identification, management, and treatment of children with intellectual and developmental disabilities in lower- and middle-income countries. Dr. Reichow is the current Editor of the Disability Coordinating Group of the Campbell Collaboration and *Campbell Systematic Reviews* and was Co-Editor in Chief of the *Journal of Early Intervention* from 2019-2024. He also serves as an associate editor for the *Journal of Autism and Developmental Disorders* and *Topics in Early Childhood Special Education*. Widely published, Dr. Reichow has authored over 100 scholarly works. Prior to his graduate and post-doctoral studies at Vanderbilt University and Yale University, respectively, Dr. Reichow received degrees in elementary education and psychology at the University of North Carolina at Chapel Hill and was a teacher of students with autism in early care and education settings and public elementary schools in North Carolina.
