Kylie Porritt, BN, PhD

Dr Kylie Porritt is the Director of the Transfer Science Division at JBI and the Editor-in-Chief of the JBI EBP Database. She has been an active contributor to the field of evidence-based healthcare for nearly two decades. She leads a team of dedicated, passionate researchers, and together, collaborating with local and international stakeholders, develops rigorous, trustworthy evidence-based resources to inform and guide clinical decision-making and practice.

Dr Kylie Porritt is an experienced, published researcher having been involved in the conduct of multiple systematic reviews and various health-related research projects. She has a particular interest in advancing the methodology underpinning the development of clinical decision-making resources and has had a critical contribution in developing the methodology for meta-aggregation, JBIs approach to qualitative evidence synthesis, and CONQual, JBI approach's to assessing confidence in the qualitative synthesised findings.
